And that raises another question: will an increase of five mills be enough? It is understandable that anyone would approach the subject of a tax increase with caution. But even the virtue of caution can be stretched too far. In fact, to be perfectly frank, those "in the know" have said that five mills is not enough, but that it was felt five mills is all that could be asked for. We do not agree. Let us study the subject again. If an additional

OIL INDUSTRY INSTALLATIONS IN ALABAMA

To meet the growing energy needs of Alabama during the next few years, the oil industry is making preparations today for new and improved facilities. The map shows present oil producing and refining areas, and pipelines that transport crude oil and refined products. You teen agers have many problems! Sure, they are hard to solve, but with the right kind of help, you can find the right answer. Have you ever discovered that God can satisfy your longings? In His Church, you work and play with other teen agers, sharing with them the experience of worship through music, Bible study, and prayer. Here you discover that others have passed through similar experiences, solved similar problems.

In the Church are adults who remember their own teen age tangles, and have come to realize that human beings are more or less alike, regardless of age. Here are leaders who can help and who really understand! The Church offers you teen agers an opportunity to be yourselves at your very best, to exercise all your powers, to make life as wonderful as your rosiest dreams. How about it teen agers?
